

AutoLOS™

A Fully Automated Loan Origination System

Application

Online application data flows directly into system and creates automated workflow

Decision

Automatic credit pull, then build and configure your own custom decision matrix

Web Portals

Allow your applicants and/or retail channel partners to "self serve" with-in just seconds of application

AutoLOS™ by LOAN SERVICING SOFT is a fully automated loan origination system or LOS. Self-service web portals allow your applicants and/or retail channel partners to complete the entire loan origination process themselves, from anywhere with-in seconds of application. Additionally, optional DocuSign eSignature® support make AutoLOS™ a 100% paperless solution!
